Results on exam 17 March

I only write results for those who ticked the box "Jag tillåter att ... läggs ut på internet". You may write an email to me and ask if you don't find your result below. I have handed in all exams to the student administrators. (But I will take out the remaining 6p-exams 22/3 from 8.00 to 10.00, if some (6p-)students prefer to have the exam returned from me during the lecture.)

4p course
(Result on exam + result on homework)

820704	17+2=19
831009	29+3=32

6p course
The final score is computed as

$$F = \tfrac{2}{3}(E_1 + E_2) + H,$$

(rounded to nearest integer) where $0 \leq E_1 \leq 40$ is the score on exam no 1 (17 March), $0 \leq E_2 \leq 20$ is the score on exam no 2 (21 April), and $0 \leq H \leq 6$ is bonus from homework.

	E_1	E_2	H	F	Grade
790424	33	-	4	26	G
820717	21	5	1	$18 + \frac{1}{3}$	G
830813	28	6	0	$22 + \frac{2}{3}$	G
841217	19	6	0	$16 + \frac{1}{3}$	G
850130	31	16	3	$34 + \frac{1}{3}$	VG

(Note that the limit for G is NOT the usual one, 18p.)
