Mathematics and Statistics for Biologists

The course Mathematics and Statistics for Biologists 1MA071 consists of 24 lectures in Mathematics and 10 lectures in Statistics.

Evaluation

The homework, both in Mathematics and Statistics, is **mandatory**. This means that if the student does not hand in and get a positive grade in all homework, he/she will not pass the course.

There is a written exam and a computer-based exam.

Overall, the course is passed if in all homeworks, written exam and computer-based exam the student gets a positive grade.

Retakes

In case a student takes a retake, no homework hand-in is needed. The retake consists of taking **both** computer-based and written exam.

Uppsala, 23th of January 2015.
