Theses

- 64-1. *Existens och approximation av holomorfa lösningar till randproblem i konvexa områden* [*Existence and approximation of holomorphic solutions to boundary problems in convex domains*]. Thesis for the Degree of *filosofie licentiat*, submitted to Stockholm University. [Approved on 1964-03-21. Part of the results were published in 65-1.]
- 66-1. *Studies in Analytic Functionals and Functions of Exponential Type*. Summary of Doctoral Dissertation, submitted to Stockholm University, 1966. [Approved on 1966-12-03. The thesis consists of a short summary and the publications 65-1, 65-2 and 67-1.]

Mathematics

- 65-1. Existence and approximation theorems for solutions of complex analogues of boundary problems. *Arkiv för matematik* **6** (1967), 193–207 (1965, 1966).
- 65-2. On unique supports of analytic functionals. *Arkiv för matematik* **6** (1967), 307–318 (1965, 1966).
- 67-1. On entire functions of exponential type and indicators of analytic functionals. *Acta Mathematica* **117** (1967), 1–35. (Submitted 1966-05-31.)
- 68-1. Functionals on the space of solutions to a differential equation with constant coefficients. The Fourier and Borel transformations. *Mathematica Scandinavica* **23** (1968), 27–53.
- 68-2. Existence of entire functions of one variable with prescribed indicator. *Arkiv för matematik* **7** (1969), 505–508 (1968).
- 68-3. Compacts d'unicité pour les fonctionnelles analytiques en une variable. *Comptes Rendus de l'Académie des Sciences (Paris), Série A*, **266** (1968), 661–663.
