17: Vad i denna kurs har varit särskilt bra?

Answers: 7

Summary of free-text responses/comments for the question
 Flexible and caretaking teacher, and pretty good lectures.
 Have not attended the föreläsningar but the course book is really good
 Rostyslav is a good teacher. He's very clear, concise and he has structured the course in a balanced way. The moments in the course that I enjoyed most were the ones with geometric applicability, for example the phase portraits, because it is always nice with pictures.
 Föreläsningarna var väldigt bra! Tydliga och strukturerade.
 Föreläsaren - bra på att förklara, mån om att vi förstått, ställer rimliga krav.
 It was a fun course

18: Vilka åtgärder kan förbättra kursen?

Answers: 6

Om kursansvarig vill ge quizz i fortsättningen, ge dem i början av föreläsningarna.
 Översätt uppgifterna till den nya boken.
 Good course the computer lab part was a little bit weird and felt purpose less maybe leave rungekutta etc to bervet 2 or go more in depth on it and have atleast 3-4 lab sessions
 Lägga upp anteckningar på portalen. Jag gillar att läsa både anteckningar och boken!
 Kurslitteratur som är mer lättillgänglig
 Perhaps a bit more theory would be good
